PART 1

Storage Unit Rental

Unit Management

Full inventory control over every storage unit in the facility.

- ✓ Grid view (visual floor plan, color-coded by status) and sortable table view
- ✓ Units grouped by floor
- ✓ Size (sq ft), dimensions (L × W), monthly price, and discount per unit
- ✓ Shared unit flag for units rented to multiple customers
- ✓ Filter by status, floor, size, or keyword

Customer Management

Detailed customer profiles used across both the storage and moving modules.

- ✓ Full name, nationality, company name, tenant type (individual / company)
- ✓ Emirates ID number and expiry date
- ✓ Passport number and expiry date
- ✓ Multiple phone numbers and email
- ✓ Authorized access persons (name, phone, relation, ID)
- ✓ Address, emergency contact, and notes

Maintenance

Contract Lifecycle

Contracts move through a clearly defined status flow from creation to completion.

Draft

Pending Signature

Active

Ended / Cancelled

Contract details captured

- ✓ Customer, unit(s), billing period (weekly or monthly)
- ✓ Rate, deposit, start and end dates
- ✓ First-month discount option
- ✓ Authorized access persons
- ✓ Payment method

Official contract PDF

- ✓ Uses the official PurpleBox Storage Licence Agreement template (13 pages)
- ✓ Filled with customer and contract data automatically
- ✓ Download at any time from the contract page

Remote E-Signature

Send a secure signing link to the customer via WhatsApp or email. No login or app download required.

- ✓ Mobile-friendly signing page — works on Android and iOS browsers
- ✓ Customer views the full contract PDF before signing
- ✓ Sign by drawing with finger/mouse or typing their name
- ✓ Signature is stamped onto the PDF and stored securely
- ✓ Contract activates automatically upon signature
- ✓ Signing link has a configurable expiry date
- ✓ Page shows contract number, dates, and first invoice amount
- ✓ Signed PDF saved to Google Drive and linked in the system

Billing & Invoice Schedule

Flexible billing for weekly and monthly contracts with automatic schedule generation.

- ✓ Monthly and weekly billing periods supported
- ✓ Monthly rate $\div$ 4 = weekly payment amount
- ✓ First invoice includes current period rent + advance rent (covers the last period)

Invoice Features

Professional invoices with full tracking and payment recording.

- ✓ Numbered series (INV-XXXXXX)
- ✓ Detailed line items with descriptions and amounts
- ✓ PDF download

- ✓ Contracts 4 weeks or less: advance labeled as "Security Deposit"
- ✓ Optional first-month discount (percentage)
- ✓ Full payment schedule auto-generated with one click

- ✓ Send to customer via WhatsApp
- ✓ Record full or partial payment (with method and notes)
- ✓ Payment history log per invoice
- ✓ Overdue indicators and batch payment recording

Automated Payment Reminders

The system runs every 6 hours and automatically sends reminders to customers with upcoming or overdue payments via WhatsApp and/or email — with escalating stages and full admin control.

STAGE	DEFAULT TIMING	tone	CHANNEL
Friendly Reminder	15 days before due	<i>Gentle</i> — "your payment is coming up"	WhatsApp / Email
Payment Reminder	7 days before due	<i>Firm</i> — "please arrange payment soon"	WhatsApp / Email
Urgent Reminder	3 days before due	<i>Urgent</i> — "immediate action required"	WhatsApp / Email
Overdue Notice	On due date	<i>Hard</i> — "access may be restricted"	WhatsApp / Email
Final Vacate Notice	7 days overdue	<i>Final</i> — "vacate or pay immediately"	WhatsApp / Email

Admin-configurable: Every stage can be renamed, retimed, and reworded. Message templates support placeholders: customer name, amount due, unit number, due date, and days remaining. Reminders stop automatically once payment is recorded. A full log of every reminder sent (date, channel, stage, success/failure) is visible inside each contract.

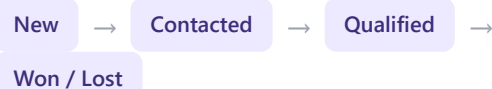

WhatsApp Integration

- ✓ Send contract signing links via WhatsApp
- ✓ Send payment reminders via WhatsApp (automated + manual)
- ✓ WhatsApp message inbox showing all customer threads
- ✓ Manual messaging from customer and contract pages
- ✓ Auto-import leads from labeled WhatsApp conversations

Leads Pipeline

Track prospective storage customers from first contact to move-in.

- ✓ Source tracking (WhatsApp, walk-in, referral, web)
- ✓ Storage size and duration requirements
- ✓ Convert won lead to customer with one click

- ✓ Google Contacts sync (every 10 minutes)

Document Management

- ✓ Upload documents per contract or customer
- ✓ PDF, images, and other file types supported
- ✓ Cloud storage via Google Drive or local server
- ✓ Document types: Contract, ID Proof, Other
- ✓ Signed contract PDFs automatically saved to Drive
- ✓ View and download from Documents section or within the contract

Storage Reports

Monthly Payments	All payments collected by month
Unit Revenue	Revenue and occupancy per unit
Finances	Income vs. expenses overview
Forecast	Projected revenue from active contracts
Upcoming Vacancies	Units becoming available
Overdue Payments	All overdue records with contacts
Expiring Contracts	Contracts ending soon

PART 2

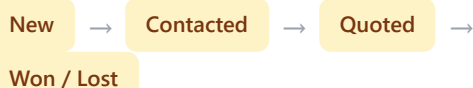

Moving Business

The moving module is fully independent — separate jobs, invoices, quotes, crew, fleet, and reports. The only shared element is the customer database. Storage and moving operations never mix.

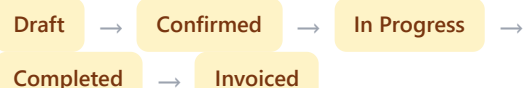

Moving Leads

Track prospective moving customers from enquiry to confirmed job.

Moving Jobs

The central entity — full lifecycle from booking to invoice.

- ✓ Move date, pickup and delivery addresses
- ✓ Estimated volume (CBM)
- ✓ Source tracking (call, WhatsApp, web, referral, walk-in)
- ✓ Internal notes timeline
- ✓ Convert to Moving Job with one click

- ✓ Job types: Local, Inter-Emirate, International, Office Move, Storage to Home
- ✓ Pickup and delivery addresses with floor and elevator details
- ✓ Scheduled date and time slot, estimated duration
- ✓ Crew and truck assignment
- ✓ Costs tracking (labor, truck, materials, extras)
- ✓ Internal notes timeline

Calendar Schedule

Visual weekly calendar showing all booked jobs at a glance.

- ✓ Week and day navigation
- ✓ Each job shown as a card on its scheduled date with customer name, time slot, and truck
- ✓ Color-coded by status (Confirmed = blue, In Progress = amber, Completed = green)
- ✓ Conflict detection: red indicator if the same truck or crew member is double-booked
- ✓ Click any job to open full detail

Daily Dispatch Sheet

Operational sheet for supervisors and drivers — all jobs for any selected date.

- ✓ Lists every job with assigned crew, truck, addresses, and time slot
- ✓ Printable format / PDF export
- ✓ At-a-glance view of the full day's operations
- ✓ Crew contact numbers included for on-road coordination

Pre-Move Survey & Inventory

Room-by-room inventory taken before the move to ensure accurate quoting and job planning.

- ✓ Add rooms: Living Room, Bedroom, Kitchen, Office, etc.
- ✓ Log items per room: description, quantity, estimated volume (CBM), fragile flag
- ✓ Photo attachments per item
- ✓ Total estimated volume (CBM) calculated automatically
- ✓ Recommended truck type based on volume
- ✓ Surveyor name, date, and notes
- ✓ Linked directly to the moving job

Crew Management

Full profiles for every team member in the moving business.

Fleet Management

Manage every truck in the fleet with availability and service tracking.

- ✓ Name, phone, email, and role (Driver, Helper, Supervisor, Packer)
- ✓ Daily rate
- ✓ Status: Active, Inactive, On Leave
- ✓ Emergency contact
- ✓ Full job history
- ✓ Notes

- ✓ Truck name, plate number, type (Small / Medium / Large / Extra Large)
- ✓ Capacity (cubic meters)
- ✓ Status: Available, In Use, Maintenance
- ✓ Last and next service dates
- ✓ Daily rate
- ✓ Full job history

Moving Quotes

Professional quotes generated and shared with customers before the job is confirmed.

- ✓ Numbered series (MVQ-XXXXX)
- ✓ Line items with description, quantity, rate, and amount
- ✓ Sub-total, discount, and total
- ✓ Deposit required flag
- ✓ PDF generation and download
- ✓ Share via WhatsApp (public link)
- ✓ Customer accept/reject workflow

Expired

Moving Invoices

Separate invoicing system for the moving business — independent from storage.

- ✓ Numbered series (MVI-XXXXX)
- ✓ Line items, deposit paid, and balance due
- ✓ Record payments (cash, bank transfer, card)
- ✓ Payment history log
- ✓ PDF download
- ✓ Public share link for customer-facing payment page
- ✓ Bank information displayed on invoice

Draft

Sent

Paid

Partial

Cancelled

Packing Materials Inventory

Stock management for moving supplies used on each job.

- ✓ Item catalogue with SKU, category, and unit cost
- ✓ Stock in/out transactions linked to jobs
- ✓ Material usage per job deducted automatically
- ✓ Low-stock alerts on Moving Dashboard

Claims Management

Track damage or loss claims raised after a completed move.

- ✓ Link to job and customer
- ✓ Claim type, description, and item details
- ✓ Photo attachments
- ✓ Status: Open → Investigating → Resolved
- ✓ Insurance reference
- ✓ Timeline log

Moving Reports

REPORT	DESCRIPTION
Revenue	Monthly paid invoice revenue with trend chart
Jobs	Jobs by type, status, and completion rate
Crew Utilization	Days worked, jobs count, and earnings per worker for any period
Fleet Utilization	Days in use per truck for any period
Profitability	Revenue vs. costs per job and overall
Payroll	Crew earnings summary for payroll processing

PART 3

Shared System Features

Storage Dashboard

- ✓ Total units and occupancy percentage
- ✓ Revenue this month (collected vs. expected)
- ✓ Active contracts and expiring soon
- ✓ Overdue payments summary
- ✓ Breakdown by unit size and floor
- ✓ Latest contract notes feed

Moving Dashboard

- ✓ Jobs this month (count and revenue)
- ✓ Upcoming jobs list
- ✓ Crew on duty today
- ✓ Low-stock materials alert
- ✓ Quick links to today's dispatch

User Management & Permissions

- ✓ Admin and staff roles
- ✓ Granular module-level permissions per user
- ✓ Admins have full access to all modules
- ✓ Staff only see permitted sections in the sidebar
- ✓ Permissions cover all storage and moving modules, reports, WhatsApp, and settings

Integrations

- ✓ Google Drive — automatic PDF uploads, folder organisation per customer
- ✓ WhatsApp Business API — messaging, reminders, lead capture
- ✓ Google Contacts — auto-import and sync every 10 minutes

- ✓ Email (SMTP) — automated payment reminders via email

Database Backup

- ✓ Full database backup downloadable as a file
- ✓ Automatic scheduled backup every day at 02:00
- ✓ Manual backup trigger available from Settings
- ✓ Configurable backup time

Platform

- ✓ Web-based — works in any modern browser
- ✓ Responsive on desktop, tablet, and mobile
- ✓ Contract signing works on Android and iOS browsers
- ✓ All PDFs generated server-side and downloadable
- ✓ JWT authentication with secure session management
- ✓ All API endpoints protected with role-based access

Summary: PurpleBox is a fully custom-built, production-ready platform covering every aspect of running a storage facility and moving business — from the first customer enquiry through to final payment, with automated reminders, digital contracts, PDF generation, WhatsApp communication, and detailed reporting all built in.
